The School may use online or 'cloud' service providers to store personal information and to provide services to the School that involve the use of personal information, such as services relating to email, instant messaging and education and assessment applications. Some limited personal information may also be provided to these service providers to enable them to authenticate users that access their services.

## Fundraising and Marketing

The School treats seeking donations for the future growth and development of the School as an important part of ensuring that the School continues to provide a quality learning environment in which both students and staff thrive. Personal information may be used to make an appeal to a person.

If a person does not want to receive fundraising communications or The BUSY School, please contact our Risk and Compliance (Privacy) Officer.

## Security of personal information

The School has in place steps to protect the personal information the School holds from misuse, interference and loss, unauthorised access, modification or disclosure by use of various methods including locked storage of paper records and password access rights to computerised records.

These steps include:

- Restricting access to information on the School databases on a need to know basis with different levels of security being allocated to staff based on their roles and responsibilities and security profile.
- Ensuring all staff are aware that they are not to reveal or share personal passwords.
- Ensuring where personal and health information is stored in hard copy files that these files are stored in lockable filing cabinets in lockable rooms. Access to these records is restricted to staff on a need to know basis.
- Implementing physical security measures around the School buildings and grounds to prevent break-ins.
- Implementing ICT security systems, policies and procedures, designed to protect personal information storage on our computer networks.
- Implementing human resources policies and procedures, such as email and internet usage, confidentiality and document security policies, designed to ensure that staff follow correct protocols when handling personal information.
- Undertaking due diligence with respect to third party service providers who may have access to personal information, including cloud service providers, to ensure as far as practicable that they are compliant with the Australian Privacy Principles or a similar privacy regime.

## Data Breaches

It will be deemed that an 'eligible data breach' at the School has occurred if:

- there has been unauthorised access to, or unauthorised disclosure of, personal information about one or more individuals (the affected individuals)
- a reasonable person would conclude there is a likelihood of serious harm to any affected individuals as a result
- the information is lost in circumstances where:
  - unauthorised access to, or unauthorised disclosure of, the information is likely to occur
  - assuming unauthorised access to, or unauthorised disclosure of, the information was to occur, a reasonable person would conclude that it would be likely to result in serious harm to the affected individuals.

Serious harm may include serious physical, psychological, emotional, economic and financial harm, as well as serious harm to reputation.

### What must the School do in the event of an 'eligible data breach'?

If the School suspects that an eligible data breach has occurred, it will carry out a reasonable and expedient assessment/investigation within 30 days.

If such an assessment/investigation indicates there are reasonable grounds to believe an eligible data breach has occurred, then the School will be required to lodge a statement to the Office of the Australian Information Commissioner (Commissioner). Where practical to do so, the School entity will also notify the affected individuals. If it is not practicable to notify the affected individuals, the School will publish a copy of the statement on its website or publicise it in another manner.

### Exception to notification obligation

An exception to the requirement to notify will exist if there is a data breach and immediate remedial action is taken, and as a result of that action:

- there is no unauthorised access to, or unauthorised disclosure of, the information
- there is no serious harm to affected individuals, and as a result of the remedial action, a reasonable person would conclude the breach is not likely to result in serious harm.

## Access and Correction of Personal Information

Under the *Privacy Act*, an individual has the right to seek and obtain access to any personal information which the School holds about them and to advise the School of any perceived inaccuracy. There are some exceptions to this right set out in the Act. Students will generally be able to access and update their personal information through their parents/carers, but older students may seek access and correction themselves.

To make a request to access or to update any personal information the School holds about a parent/carer or student, the person contacts the Campus Principal in writing. The School may require a person to verify their identity and specify what information is required. The School may charge a reasonable fee for giving access to your personal information (but will not charge for the making of the request or to correct your personal information). If the information sought is extensive, the School will advise the likely cost in advance.

If TBS decides to refuse the request, TBS provides a written notice explaining the reasons for refusal (unless, in light of the grounds for refusing, it would be unreasonable to provide reasons) and how to complain.

## Consent and Rights of Access to the Personal Information of Students

The School respects every parent's/carer's right to make decisions concerning their young person's education.

Generally, the School will refer any requests for consent and notices in relation to the personal information of a student to the student's parents/carers. The School will treat consent given by parents/carers as consent given on behalf of the student, and notice to parents/carers will act as notice given to the student.

As mentioned above, parents/carers may seek access to personal information held by the School about them or their young person by contacting the Campus Principal. However, there will be occasions when access is denied. Such occasions may include (but are not limited to) where the School believes the student has capacity to consent and the School is not permitted to disclose the information to the parent/carer without the student's consent, where release of the information would have an unreasonable impact on the privacy of others, or where the release may result in a breach of the School's duty of care to the student.

The School may, at its discretion, on the request of a student grant that student access to information held by the School about them or allow a student to give or withhold consent to the use of their personal information, independently of their parents/carers. This would normally be done only when the maturity of the student and/or the student's personal circumstances warrant it.

## Withdrawal of Consent to Release of Personal Information

TBS employees will ensure that;

- students are informed of their right to withdraw their consent to release information at any time
- the process for withdrawal of consent be easy and accessible (i.e. verbal or in writing to an authorised TBS employee)
- the student is informed of the possible consequences of withdrawing their consent i.e. there may be limitations to the provision of services
- once student has withdrawn consent the organisation cannot rely on the student's past consent for any future use or disclosure of personal information

## Enquiries and Complaints

If you would like further information about the way the School manages the personal information it holds, or wish to make a complaints about the School's breach of the Australian Privacy Principles contact the Campus Principal either via phone, email or mail at the relevant campus address (<https://www.busyschools.qld.edu.au/contacts/>). In line with The BUSY School Complaints Handling Policy and Complaints Handling Procedure, the School will investigate any complaint and will notify the complainant of the decision in relation to the complaint as soon as is practicable after it has been made.

If a person is not satisfied with the response from TBS, a complaint can be made to the Office of the Australian Information Commissioner (OAIC) via the OAIC website, [www.oaic.gov.au](http://www.oaic.gov.au).
